

Straight out the shop...

BURNING ROX THE BIKERS WAREHOUSE NEW TEST FACILITY

Now here's a novelty – a bike shop with an enduro loop tacked on where you can go and ride the bike you just bought...

Yup – 3 and a bit kilometres of brilliant riding right outside the unflappable Mike Puzeys front gate. And it has a bit of everything from hectic rocks, to nice little single spoor tracks through the veld, muddy water crossings – a custom built bridge, steep inclines and declines, a lekker berm and a couple of decent jumps. What a fantastic idea – get up in the morning – a quick 5 or so laps (Mike tells us that top riders do a lap in 5 odd minutes), to clear the cobwebs and then head to work for a much better day. Go and have a looksee – its great! Bikers Warehouse will be hosting some fun time trials through the year...

The bikes a 2014 Husky 450 and Dirt And Trail magazine accepts no responsibility for any cracked tiles...
